PROFILE

AI video producer and social media content creator. I build AI video end to end, from prompting and generation to audio, lip-sync and the final edit, and run brand social pages across Instagram, YouTube, Facebook, Reddit and Snapchat. Two internships at ATZA Digitally took me from content creation into AI operations, delivering Meta ad videos for Funda and Speakeasy, and scripts, videos and quality control for Kuku FM.

EXPERIENCE

AI Content & Operations Intern · ATZA Digitally — May 2026 – Aug 2026

- Produced AI-generated Meta ad videos for two client companies, Funda and Speakeasy, covering AI audio, frames and lip-sync.
- Edited and produced AI audio, video, frames and lip-sync content end to end, and reviewed final cuts before client handover.
- For Kuku FM, wrote scripts, made and edited videos, and reviewed, quality-checked and approved content before delivery.

Content & Ideation Intern · ATZA Digitally — Feb 2026 – May 2026

- Managed the full content lifecycle for the agency's AI-focused social pages across Instagram, Facebook, YouTube, Reddit and Snapchat, adapting each video to the platform's format.
- Produced AI-generated videos end to end using Higgsfield, Google Flow, CapCut and Adobe Premiere Pro.
- Conceived original page identities, content themes and ideation frameworks for the brand's digital voice and new channels.
- Built video production pipelines from scratch, combining clip stitching, editing and AI audio generation into a repeatable workflow that cut turnaround time.
- Engineered prompts across Claude, Grok and Flow to cut production time.
- Added and proofread subtitles and transcripts for accessibility and reach.
- Ran continuous AI research to surface emerging tools and trends before they went mainstream.
